## PROVA 1, PART B

### **Tria i desenvolupa un dels dos supòsits pràctics:**

#### **TASK 1:**

You are the new English teacher in a village school with Pre-school and Primary education. You are going to focus on the Upper Primary class. There are 16 pupils in this class (aged 9 to 11 years).

#### SCHOOL INFORMATION:

- There is the standard classroom equipment (Smart Board and a computer).
- There are no textbooks.
- There is a pupil with ADHD (TDAH) aged 10 and a pupil with Dyslexia aged 11.

With this information how would you organize the programme for the first term?

#### **TASK 2:**

Prepare a term's project that will take place in a primary school, located in a coastal area. Tourism is the basis of the area's economy and some families are immigrants that go there to work.

#### SCHOOL INFORMATION:

- The school has two groups for each primary year.
- Your group is in Year 6 (aged 11 to 12 years).
- There is the standard classroom equipment (Smart Board and a computer).
- There are 28 pupils in each class two of whom are fluent English speakers.

Choose a project about a festival that takes place in an English speaking country.

This could be Saint Patrick's Day, May Day, Halloween...

How would you develop and plan this project using several teaching methods and a variety of equipment.
