

OPTION 1

You need to deal with the following scenario:

You are working with a group of 4th Primary students. However, after the Easter holidays, three new students join the class. These new students have never studied English before and do not speak Catalan. Design a lesson plan (didactic unit), based on personal and possessive pronouns, that works on the development of each of the four skills, while taking into consideration the needs of the new students.

OPTION 2

You need to deal with the following scenario:

You have a class of 21 students doing 5th Primary. There is a range of different levels within the group, many of whom learn at differing speeds. There are four fast finishers and a group of students who work at a slower rate and who have difficulties with reading and writing tasks. Design a lesson plan (didactic unit) based on routines and adverbs of frequency which is appropriate for the group as a whole.
